Children's Hospital

Jacobs School of Medicine
and Biomedical Sciences

University at Buffalo

ABOUT US

The Division of Endocrinology / Diabetes is part of UBMD Pediatrics and is affiliated with the Jacobs School of Medicine and Biomedical Sciences at the University at Buffalo.

Our mission at UBMD Pediatrics is to be the premier care provider for infants, children, adolescents, and young adults in Western New York and beyond by:

- Delivering excellent family-centered medical care with compassion and advocacy
- Pursuing innovation & research that enable the treatment and prevention of pediatric diseases
- Teaching health care professionals & students

CARE TEAM

Your Endocrinology / Diabetes care team will include both attending and fellow physicians, a nurse practitioner, and a dietitian along with the clinical staff (i.e. nurses, medical assistants).

SPECIALIZED CARE

Our goal is to deliver the best care to children with diabetes and endocrine disorders in Western New York and beyond, while bringing to them the latest in research development.

We provide comprehensive care to infants, children and young adults affected by diabetes or hormonal (endocrine) disorders.

WE TREAT

- Short stature and growth disorders
- Thyroid and adrenal conditions
- Disorders of pubertal development and sexual differentiation
- Bone health and disorders of calcium metabolism
- Overweight and obesity
- Type 1 and Type 2 diabetes

*Additionally, we participate in multidisciplinary specialty clinics including weight management, neurofibromatosis, neuro-oncology, and thyroid tumor.

DIABETES CENTER

Our Diabetes Center plays a key role in the Western New York community where over 900 children with Type 1 and Type 2 diabetes receive their care.

Our Center is the only pediatric hospital to have received the designation of the Diabetes Center of Excellence for Type 2 diabetes from the New York State Department of Health.

In April 2013, our Center joined the league of selected pediatric diabetes centers to be accredited by the American Diabetes Association (ADA) for the Education Recognition Program.
