

**ANNOUNCEMENT OF
PROFESSIONAL VACANCY**

UBMD Pediatrics
1001 Main Street, 5th Floor
Buffalo, New York 14203

Applications are invited for consideration for the following position:

Campus: UBMD Pediatrics Budget Title: Lab Research Coordinator/Veterinary
Tech
Department: Pediatrics Descriptive: As Above

Professional Rank
and Salary Range: Salary Commensurate
with Experience Date to be Filled: ASAP

Brief Description of Duties: We are hiring for the position of technician with experience in both large and small animal handling. Major responsibilities related to in vivo work include Coordinating the laboratory schedule. Anesthesia of sheep, pigs and rodents. Preparation and management of sterile surgery. Surgical assistance for invasive instrumentation. Post-operative monitoring & administration of analgesia. Ensuring compliance to IACUC and experimental study protocols. Proper record keeping of measured physiologic parameters. The technician is primarily responsible for managing the BSL-2 surgical suite for lamb studies and organizing data collected during experimental protocols. Must be able to handle large animals mostly lambs. The quality and accuracy of data collected during in vivo experiments is a key component to our success in publications and contribution to translational science. The division encourages technicians to co-author publications and abstracts with departmental staff.

Qualifications Experience with animal handling and related procedures is required while experience.

Education: BS or AAS in Biology, or related discipline and 1-3 years of related experience.
