## **DIVISION OF ALLERGY / IMMUNOLOGY**

## ABOUT US

The Division of Allergy / Immunology is part of UBMD Pediatrics and is affiliated with the Jacobs School of Medicine and Biomedical Sciences at the University at Buffalo.

Our mission at UBMD Pediatrics is to be the premier care provider for infants, children, adolescents, and young adults in Western New York and beyond by:

- Delivering excellent family-centered medical care with compassion and advocacy
- Pursuing innovation & research that enable the treatment and prevention of pediatric diseases
- Teaching health care professionals & students

## CARE TEAM

Your Allergy / Immunology care team will include both attending and fellow physicians and a physician assistant, along with the clinical staff (i.e. nurses, medical assistants).

## SPECIALIZED CARE

We provide services for the clinical evaluation and management of pediatric and adolescent patients with asthma and allergic disease, as well as those with a history of recurrent infections and inherited immune deficiency disorders.

## WE TREAT

- Allergic conjunctivitis
- Allergic rhinitis
- Atopic dermatitis (eczema)
- Chronic urticaria
- Difficult-to-control asthma
- Drug and/or vaccine allergies
- Food allergies (including food-protein induced enterocolitis and eosinophilic esophagitis)
- Hereditary angioedema
- Latex allergies
- Primary immune deficiencies

## SERVICES & PROCEDURES

- Allergy immunotherapy (allergy shots)
- Environmental / food allergen skin testing
- Inpatient drug desensitization
- Oral challenges for food allergies
- Penicillin skin testing
- Pulmonary function testing
- Replacement therapy with intravenous immune serum globulin (IVIG)
